

# LEGIO XIII GMV

Signa Activity

[www.LegionXIII.com](http://www.LegionXIII.com)

## **Directions for Signa Activity:**

### **Supplies Needed:**

Paint Stir Stick or Dowell Rod

Scissors

Glue or Tape

Crayons/Markers

### **Directions:**

1.) Color the parts of the signa (the hearts are spear tips, so they should be brass or silver colored), the back of the Legion sign is Red and outlined in yellow, the shields are metal discs, and the upside down comb-looking objects are fringe caps, usually with yellow-gold fringe and read weave or gold weave.

2.) Cut out all the pieces

3.) Affix the pieces in the order that you prefer. This should make 2 signas or one long signa. 1 with the legion name at the top and the other with Legion XIII symbol of the Capricorn near the top. The "metal" discs normally provided a clanging noise when marching.
